CNCE STEEL HIGH PRESSURE BALL VALVE

We are proficient manufacturer & suppliers of **Stainless Steel Ball Valve**. These are fabricated using the best quality raw material, sourced from the market trusted vendors. We ensure that the valves offered by us must comply with the norms set in the industry and deliver lasting performance.

Stainless Steel Series ball valves can withstand corrosive fluids and environments. With full flow, high pressure & temperature capabilities, these valves are suitable for many applications.

Features/Benefits:-

- Reliability
- full Flow
- High resistance to pressure

Some of the key details of our products include:

| | |
|----------------|------------------------------|
| Connector Type | Screwed |
| Brand | CNCE |
| Material Grade | SS304 / 316 |
| Material | SS304 / 316, Stainless Steel |

| | |
|----------------------|--------------------------------------|
| Steel Grade | ASTM CF8 (SS304) / CF8M (SS316) |
| End Connection Type | Threaded |
| Pressure | 80Kg/cm2 |
| Media | Gas, Air, All Industrial Used, Water |
| Automation Grade | Manual |
| Temperature Of Media | Medium Temperature |
| Packaging Type | Box Packing |
| Thread Type | 3/8 BSP Thread |
| Design | 1 PIECE |
| Surface Finishing | Polished |
| Weight | 0.230gm/pc |
| Id Hole | 8mm |
| Type | CF8(10mm Widthx8mm Id) |
| Ball Type | Steel |
| Valve Type | Steel |
| Diameter x Length | 28mmx58mm(approx.) |
| Handle | Steel 4'Inch length (approx.) |
